A trademark is basically a sign that is used to distinguish the goods and services offered by one undertaking from those of another.

THE TWO MAIN CHARACTERISTICS OF A TRADEMARK;

I. It must be distinctive (it must by its very nature be able to distinguish goods and services) and
II. It should not be deceptive (misleading).

Therefore a trademark is a sign that individualizes the goods and services of a given enterprise and distinguishes them from the goods and services of its competitors. A trademark may consist of any word, symbol, design, slogan, logo, sound, smell, colour, label, name, signature, letter, numeral or any combination of them and should be capable of being represented graphically. A trademark can also be a three dimensional-consisting of packaging of goods itself. A trademark protects good whereas a service mark protects services.

The registration is for a period of Seven years (7) and upon expiry is renewed every ten (10) years.

3. The application is then examined to determine if it is capable of distinguishing the goods or services from others and whether use of the trademark is likely to cause confusion.

4. Publication of Application: If accepted, the application will be advertised in the Official Government Gazette for 60 days.

5. Certificate of Registration: If there is no opposition after the expiration of 60 days of the advertisement in the gazette, the Registrar shall upon payment of the prescribed fee by the applicant enter the trademark in the register and issue a certificate of Registration.
